Yours sincerely,

PEDER BACK.

Dear Sir:

In the Spring of this year I purchased one pound of Back's Copenhagen Market Cabbage Seed, one pound of Back's Hollander and one pound of your Special Ferry's Hollander grown for you in Denmark.

The germination of all three varieties was satisfactory, that of Back's Hollander being the best that I have observed in 15 years' cabbage growing.

We planted about five acres of Copenhagen Market; about one acre of Back's Hollander and five acres of Ferry's Hollander. The Copenhagen Market seed was sown on the 10th of May, the plants were set out about the 20th of June and the crop was marketed in the ten-day period beginning Aug. 25th. It was the earliest Cabbage that we have ever grown; it yielded about 14 tons per acre, but would have yielded much more heavily had it been given two weeks more to grow. Incidentally, it was the finest eating cabbage that ever came on our table.

Of the two late varieties Back's Hollander is a heavy yielding firm cabbage that in many respects is an ideal strain for the general late market.

The Ferry's Hollander Danish grown is the kind that delights the heart of the grower who wants a late cabbage for storing. The heads are as sound as so many nuts and almost as uniform in size. For our black fertile soil this variety cannot be surpassed. All three varieties are true to type a quality which is lacking in much of the seed ordinarily offered for sale.

Very truly yours, J. D. JONES JR.

My Dear Mr. Back:

Enclosed please find my order for next year's Cabbage Seed. I wish to thank you for the way you have taken care of my orders in the past years, and I can recommend your Cabbage Seed to my friends as being the best seed that I have had.

Yours very truly, L. C. CHRISTENSEN.

Dear Sir:

Your seed was very good. I think it must have grown 100 per cent, as I raised all my plants and had all kinds of plants to spare.

Sincerely yours, JOSEPH MEYER, Corliss, Wis.
Dear Sir:

In regard to your Cabbage Seed will say that I have grown Cabbage from your seed for a number of years alongside of Cabbage from other seed, and I have found your seed to be very much above the average, especially as to uniformity and good KEEPING qualities in storage.

Very truly yours, HARVEY A. NELSON, Union Grove.

Dear Sir:

I am very glad to have a chance to recommend the Peder Back Seed Co., as I have been a user of their seed for several years and have always been very much pleased with them. Sincerely Yours,

FRED C. HANSEN, Union Grove, Wis.

Dear Sir:

In regard to your early and late Cabbage Seed, we wish to say that we and many of our neighbors have been using it for several years and found it satisfactory as to quality and price.

Yours truly, ROBT. M. RASMUSSEN, Kenosha, R. F. D. 2.

Dear Mr. Back: 

I bought 5 pounds of your Cabbage Seed last year and was so well pleased with my Cabbage that I am coming in to see you and get all my seed from you again.

I believe I had the best Cabbage in Kenosha County, at least I have not seen any better and the Cabbage Buyers were after me early and late to get a hold of it.

Yours very truly, P. G. SCHAEFFER, Somers, Wis., R. F. D. 1.

Dear Sir: 

I thought I would write you a few lines and let you know that I want 5 pounds of your Ferry’s Hollander Danish Grown Cabbage Seed at $7.00 a pound.

We have used your Cabbage Seed for the past two years and we think it is the best we ever used. It grows so even and the heads are as hard as rocks, and we think they are the best for storing.

Please let me know if this letter reaches you and the money order.

Yours truly, JOHN HEIMES, R 3 Kenosha, Wis.

Dear Sir: 

I am writing you about your Cabbage Seed. I like it very much, and I have had good Cabbage. I would like 1½ lbs. Ferry’s Hollander Danish Grown Cabbage Seed, and you will find payment enclosed for same.

Yours sincerely, O. NA GREEN, R 1, Shiocton, Wis.

Dear Mr. Back:

The Cabbage Seed which we purchased from you has proven all that you claimed for it. The growers who purchased your seed from us are very much pleased with it. Those who rowed Back’s Cabbage Seed are getting the tonnage, and the heads are as solid as a rock.

Very respectfully yours,

VOSBURGH HARDWARE CO., Genoa Jct., Wis.

GLADIOLUS

The Gladiolus is one of the most decorative plants in the garden and as a cut flower lends itself readily to any arrangement. If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh a week or ten days. No flower has gained more rapidly in public favor than Gladiolus; this could not well be otherwise, for in addition to the great intrinsic merit of the flower, it is hardy and blooms the first season from bulbs.

All our Gladiol Bulbs are large and not to be compared with small sizes offered cheaper elsewhere.

“Racine Park Lawn Grass Seed”

This Lawn Grass Seed Mixture IS THE FRUIT OF MANY YEARS OF EXPERIENCE AND CLOSE STUDY OF SOIL CONDITIONS IN RACINE COUNTY AND IS UNDOUBTEDLY THE BEST THAT CAN BE HAD.

It is composed of the highest grade Lawn Seeds, having the highest purity, and germination there is to be had.

By its use a deep green velvety sward free from lumps can be produced in from four to six weeks.

The remarkable heavy demand for RACINE PARK LAWN GRASS SEED this past year proves the quality. 1 lb. will sow 175 square feet. 100 lbs. to the acre. Lb., 45 cts.; 10 lbs., $4.25; 25 lbs., $10.25; 100 lbs., $40.00.

“Oak Shade Lawn Seed”

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf growing, evergreen varieties, which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently “sour” and if the drainage is defective it is apt to be covered with moss and coarse grasses. In such cases an application of slaked lime, at the rate of one bushel to each thousand square feet, or forty bushel to the acre, is an excellent corrective and sweetener, but the moss should be first removed by the use of a sharp rake. 1 lb., 60 cts.; 10 lbs., $5.75; 100 lbs., $52.00.
